RE: PCB PERMIT RENEWAL

Dear Mr. Martig:

Environmental Enterprises, Inc. (EEI) is a PCB Commercial Storage Facility located at 4600 Spring Grove Avenue, in Cincinnati, Ohio. By means of this letter we would like to express our intent to renew our PCB permit for 10 years. There is no change in volume or types of materials handled.

We have been unable to locate a notification requirement that was part of our existing permit.

Please do not hesitate to contact me with any questions at 513/541-1823.

Sincerely,
ENVIRONMENTAL ENTERPRISES, INC.

Don McCabe

IN THE MATTER OF:)	APPROVAL TO COMMERCIAL
ENVIRONMENTAL ENTERPRISES, INC.)	STORE POLYCHLORINATED
CINCINNATI, OHIO)	BIPEENYLS (PCBs)

AUTHORITY

This approval is issued pursuant to Section 6(e)(1) of the Toxic Substances Control Act of 1976, Public Law No. 94-469, and the Federal PCB regulations, 40 CFR § 761.65(d).

BACKGROUND

Section 6(e)(1) of the Toxic Substances Control Act (TSCA) requires that the United States Environmental Protection Agency (U.S. EPA) promulgate rules for the disposal of PCBs. Rules implementing TSCA Section 6(e) were published in the May 31, 1979, Federal Register (44 FR 31542) and recodified in the May 6, 1982, Federal Register (47 FR 19527). Those rules also regulated the storage of PCB waste prior to disposal under the TSCA Section 6(e)(1) disposal authority for PCBs. Amendments to those rules were published in the December 21, 1989, Federal Register (54 FR 52746).

The current rules for PCB storage facilities are codified at 40 CFR § 761.65, Storage for Disposal. Those rules require, among other things, that facilities which store PCB waste generated by others, in quantities greater than 500 gallons, obtain a U.S. EPA approval. The December 21, 1989, Federal Register designated the U.S. EPA Regional Administrator of the region in which the storage facility is located (or the Director, Chemical Management Division [CMD], if the commercial storage area is ancillary to a facility approved for disposal by the Director, CMD) as the approval authority for commercial PCB storage facilities.

Environmental Enterprises, Inc. (EEI) is engaged in the storage of PCB waste and PCB Articles generated by others, in quantities greater than 500 gallons, at its facility in Cincinnati, Ohio. On February 5, 1990, the U.S. EPA granted EEI an interim approval to commercially store PCB waste. A commercial PCB storage approval application (application) was originally submitted to the U.S. EPA on August 2, 1990. Upon receipt of EEI's complete application, the February 5, 1990 interim approval was extended until the Regional Administrator made a final decision on the storage application.

After a technical adequacy review of the application, the U.S. EPA sent a Notice of Deficiencies (NOD) to EEI on June 26, 1991, notifying EEI of deficiencies in the application. In response to the NOD, the facility submitted a revised application on October 4, 1991. As a result of further review of the revised application, another NOD was sent by the U.S. EPA to the facility on February 8, 1995. The U.S. EPA received a response to the NOD from EEI on July 5, 1995. The U.S. EPA has determined that the final revised application is in compliance with the regulatory requirements, outlined at 40 CFR § 761.65, Storage for Disposal.

APPLICABLE REGULATIONS

The conditions of this approval were developed in accordance with the applicable provisions of 40 CFR Part 761 and the October 18, 1989, TSCA Guidance Manual for Commercial PCB Storage Facility Applications.

APPROVAL

Approval is hereby granted to EEI, 4600 Spring Grove Avenue, Cincinnati, Ohio, at latitude North 39° 9' 10" and longitude West 84° 30' 45", to commercially store PCBs and PCB items for disposal, subject to the Approval Conditions stated herein, and based on the information described in the application.

This approval shall become effective on the date of signature and shall expire ten (10) years from the date of signature, unless revoked, suspended, or terminated in accordance with the Approval Conditions stated herein.

This approval does not relieve EEI from compliance with all applicable Federal, State and local regulatory requirements, including the Federal PCB regulations at 40 CFR Part 761.

Valdas V. Adamkus
Regional Administrator
